

Figure 8 is a plan view illustrating a component for use with the present invention.

Figures 9A through 9VV illustrate Bid Cards used in the game.

Figures 10A through 10DD illustrate other cards used in the game.

The Examiner objected to the disclosure because reference numerals were not used to cross-reference between the specification and the drawings. Applicant has attached hereto as Exhibit 1 a new version of the specification which illustrates the edits made. Exhibit 2 attached hereto is a clean copy of the specification.

IN THE CLAIMS

Please amend Claim 1 as follows:

- 1) (Amended) A method for engaging in a business method board game adapted to be played by a plurality of players comprising the steps of:
 - a) Providing a game board adapted for a particular business method of bidding on and fulfilling construction contracts wherein the board comprises a simulated roadway with u-turn capability and designated address locations;
 - b) Providing implements to be used in performing the business method in connection with the game board, wherein the implements comprise dice, playing cards, simulated vehicles such as trucks, script representing money, simulated parts representing simulated materials[.] and bid [and tabs] boards with dollar amounts that clip or attach to cards representing money; and
 - c) Engaging in a construction bidding business method game according to pre-determined rules wherein the rules provide for moving the simulated vehicles only in designated directions along
